

## Polaris 6.5 Build Report

Issue key	Fix Version/s	Public Summary	NetSuite ID
POL-8895	6.5	Notices: Patrons with a preferred notification method of TXT were receiving email reminder notices with some missing information (e.g. New Due Date, Format). This has been fixed.	29489745
POL-8774	6.5	PAC: Patron registrations were failing to save for some libraries when usernames were disabled.	29382719
POL-8725	6.5	Notices: TXT notices were not being send when other notification types were exported. This has been fixed.	29300208
POL-8660	6.5	Notification: Polish and Hindi can now be enabled for notifications, when licensed.	29016770
POL-8607	6.5	Staff Client: The patron registration expiration date and address check date fields will now default to 20XX when a two digit year is entered in the date picker.	28739494
POL-8534	6.5	Leap: Users are now blocked from offline checkout when Leap Offline is not installed.	28406386
POL-8533	6.5	Outreach: Items no longer showing checked-in at the wrong branch when circulated multiple times by the same Outreach Services patron.	28404050
POL-8418	6.5	Leap: The item bulk change with a template is now properly clearing call number fields.	27887518
POL-8402	6.5	PAC: Ensure session cookies are secure when SSL is enabled. (Leap is stateless so there is no session cookie to maintain any state information).	27819791
POL-5420	6.5	Outreach: Staff are no longer warned about loss of outreach information when merging an inactive outreach patron.	14227052
POL-5354	6.5	Community: When importing event records from Evanced not all events were being imported when there were multiple Evanced accounts.	13896285
POL-1943	6.5	Outreach: ORS Circulation Statistics report no longer includes circulation for inactive outreach patrons.	6527243
